

CHANGE OUR DESTINY

Music Tomi Yatsukame / lyrics by Seiji Motoyama

Song Hiroko Yamaguchi / Chorus Mayumi Sudo

Although our world is full of pain
we must endure
Searching for answers in the dark
stumbling endlessly
And there will always be someone
who tries to hurt
Look around and you may believe
that you can't change destiny

Even in defeat, though I may feel weak
I am strong, I do not believe in fate
The human soul has a will, I will fight until
the end I know I will overcome

Don't need a reason now don't ask me why
The answer lies deep in your heart
Through the ages all the wisdom you seek
Calling out to you, we must seek the truth
Change only comes if you truly believe
The answers we knew from the start
Don't forget the legacy that we leave
Look around, I know that you will see
Yes we can, we'll change our destiny

Wandering down this lonely road
my thoughts grow dark
But I know that around the bend
lies a hope so sweet [want you listen to
me now..]

Don't forget the children they hold our
future
Keep them warm and never let them go
Teach them everything they need to know
The font of knowledge is their freedom

In a world of sin, I will not give in
I am strong, I do not believe in fate
The human soul has a will, I will fight until
the end I know I will overcome

Don't need a reason now don't ask me why
The answer lies deep in your heart
Through the ages all the wisdom you seek
Calling out to you, we must seek the truth
Change only comes if you truly believe
The answers we knew from the start
Don't forget the legacy that we leave
Look around, I know that you will see
Yes we can, we'll change our destiny

Don't you know knowledge will open the
door
Whoever, wherever you are
And I know I'll find what I'm looking for
Calling out to me, for the world to see
Just take my hand now it's time to believe
The answers we knew from the start
Through the ages all the wisdom you seek
Calling out to you, we must seek the truth
Change only comes if you truly believe
The answers we knew from the start
Don't forget the legacy that we leave
It's for me and you, we must seek the truth
Lalala...
